B-BBEE Level 2

SKILLS PROGRAMME: SHE 2 – WORKPLACE SAFETY

Outcomes

Abilities and skills developed:

Identifying and helping prevent fatigue in the workplace.

Moving materials by hand according to the occupational health and safety requirements.

Describing the various sources of noise and the personal protective measures that can be taken against exposure.

Identifying components of the environment and describe their interrelationships.

Recognising the impacts of events and human activities and gather information using relevant tools.

About

Safety, Health and Environment (SHE) Skills Programmes are based on the qualification National Certificate: Occupational Health, Safety and Environment (SAQA 74269) at NQF level 2. Several skills programmes may lead to the attaining of the full qualification.

They are intended for safety, health and environmental (SHE) practitioners, middle management and persons managing the occupational safety of any workplace, industry or large office.

The SHE skills programmes assist learners to identify, monitor, advise and report on occupational, health and environmental safety factors, which may have a detrimental effect on the safety of workers in the business or the workplace.
