PURPOSE OF THE UNIT STANDARD

The skills, values and knowledge reflected in this unit standard are required by people in the field of manufacturing and engineering. The learning outcomes in this unit standard also contribute to the exit level outcomes required for various manufacturing and engineering qualifications. Qualifying learners can select and use the appropriate fire-fighting equipment to extinguish or control fires in the workplace.

NB: The certificate of competence associated with this Unit Standard will be valid for only three years to ensure the holder's continued competency through regular re-assessment.

COST & ENROLMENT

This a **1 day** course & costs **R900.00**

This course is not offered online. Full contact training is the only method of study for this course.
